

I wish to inform you of how valuable K-Love is to me and my family. The positive message and music are of great importance in my everyday life, helping me to remain positive and focused throughout the day. I believe in the station so deeply that I am a financial supporter of this radio station.

This positive, family-safe environment would be lost if K-Love were no longer available on my radio dial. I could no longer turn on the radio and be assured that I had no worries about inappropriate, violent or rude content. I believe having this station allows our local community a vital choice. We have obviously valued our choice, since without local money the listener funded broadcasting could not continue in our local area. Having a positive choice is good for our community, and in the public interest.

I support K-Love, and I would be personally negatively affected by the loss of the station due to LPFM stations taking priority over current FM translator services. Please contact me if you have any questions. Thank you for your time.

Sincerely,
Kristen Lauer
